

GRAVITY SKATEWHEEL LIGHT DUTY FLEX CONVEYOR

ConveyX Corp. (CXC) Light Duty Gravity Skatewheel Flex Conveyor for high volume unit handling applications with capacity of up to 200 pounds per linear foot. The conveyor can expand, contract, flex and move to fit the needs of every operation. The Gravity Skatewheel Flex Conveyor can be used as stand-alone or in conjunction with other conveyor systems. This portable and durable conveyor delivers optimal utility and versatility for distribution centers and retail stores, as well as manufacturing, assembly and processing facilities.

STANDARD FEATURES

- Flexible design makes this conveyor ideal for packing, shipping/receiving and temporary assembly lines
- Easily move, reposition and compress to optimize floor space
- Free-spinning wheels allow products and packages to be moved manually with minimal effort
- Load capacity – up to 200 lbs per linear foot
- Adjustable telescopic leg supports to meet a variety of height requirements for the proper material flow
- Includes swivel casters with brakes on every leg for easy transport
- Package End Stop prevents packages from falling off the end of the conveyor and pivots down out of the way when not in use
